COOLIDGE'S MESSAGE TO CONGRESS

W. S. Cousins, financial editor of the International News Service, under date line of "New York, Dec. 7", ointed out that President Coolidge's message to congress voiced the views of Wall Street. He said: "President Coolidge's message to congress today coincided with the

Wall Street view of tax reduction, railroad consolidation. tariff on importations, banking, and the general state of prosperity in the country. As a stock market factor it was extremely favorable, and supplied the motive for the buying of a considerable volume of stocks and bonds. On the

whole, the trend of stock prices was upward.' Wall Street is happy. Let the workers and farmers respond with "A Labor Party in the 1928 Election!"

Coolidge Presents Capitalist Program Against Workers in Message to Congress

The Workers' Answer Must Be Independent Political Action in Support of a Workers' Program

Statement of the Workers (Communist) Party

PRESIDENT COOLIDGE has again told congress what he believes the policies of the government should be for the coming year, thru his annual mes-

The program which President Coolidge has laid before congress has as its purpose to strengthen the power of the papitalists and the system thru which the capitalists take for their enrichment the larger portion of the wealth produced by the workers and

The president made clear in the opening words of his message that the workers and farmers need have no expectations that the government will use its power to help them. He advised congress that:

"What the country requires is not so much new polloies as a steady continuation of those which are already being crowned with such abundant slucess."

What are those polloies which the president aske congress to continue?

wealth of the country in the hands of the corpora-

They are to be seen in the enormous profits which practically all of these great corporations are report-

They are to be seen in the fact that while the wealth produced by the workers and farmers is increasing by leaps and bounds they are unable to secure any improvement in their standard of life. but on the contrary must continually fight to prevent the capitalists from reducing their standard of life thru cutting wages and increasing hours of the work ers, and thru more intensified exploitation of the

The declaration of President Coolidge for con tinuation of the policies of the past is a declaration for the capitalists and against the workers and farmers.

It is a challenge to the workers and farmers, which says to them that if they wish to improve their standard of life they must organize their power against the capitalists, against Coolidge and the re publican party, and against the democratic party which stands for the same system.

The specific recommendations for governmental action made in the president's message are of the character-FOR THE CAPITALISTS, AGAINST THE WORKERS AND FARMERS.

Tax Reduction-for the Capitalists.

THE president endeavors to make the workers and farmers believe that the tax reductions made by

"Everyone who is paying for the bare necessities of food and shelter and clothing, without considering the better things of life, is indirectly paying a national tax."

This is largely true, but the method of tax reduction proposed by the president is one which will give the benefits of the reduction to the big capitalists and not to the workers and farmers.

The president proposes that the surplus of \$383,-000,000 in the national treasury shall be returned in the form of rebates to those who made the payments. This means that the capitalists will get back part of the taxes they have already passed along to the workers and farmers thru higher prices, and the workers and farmers will get nothing out of the

The capitalist tax reduction program as expressed by Coolidge is to further enrich the capitalists and to leave the burdens on the workers and farmers as great as before.

Uphold American Imperialism-for the Capitalists.

PRESIDENT COOLIDGE boasts of the fact that we are spending \$680,000,000 a year to maintain the army and navy. The army and navy, he argues, "is an arm of the police power to guarantee order and the executionnof the law at home and security to our citizens abroad."

Further along we are told that "No self-respecting nation would neglect to provide an army and navy proportionate to its population, the extent of its territory AND THE DIGNITY OF THE PLACE WHICH IT OCCUPIES IN THE WORLD."

Our population has not greatly increased since 1914, but the extent of the territory in which the American capitalists are carrying on their imperialist exploitation has been greatly extended. This is what President Coolidge means, speaking for the capitalists, in arguing for a military establishment proportionate to "the dignity of the place" which this country occupies in the world.

The workers and farmers must pay for the main tenance of an army and navy large enough to pro-tect the more than twenty billion dollars which the American capitalists have invested in fereign countries. The pearly three-quarters of a billion dollars expended to maintain the army and navy is paid out of taxes which, the president has already shown, is passed along by the capitalists to the workers and

reduced so that we may pay for an army and navy which can protect the billions which the capitalists have loaned and invested to Europe. We must be prepared to fight Mexico in the interest of the oil companies.

We must have an army and navy which can use its Iron fist to set up the kind of governments Wall Street needs in Nicaragua, Haiti and Santo Domingo and other Central and South American governments.

We must be prepared to hold the Philippines for the rubber companies. Our army and navy must be ready to intervene in China in the interest of the American capitalists.

The workers and farmers must pay the \$680,000-000 to maintain the great military establishment which the capitalists need for these purposes out of the wealth they produce. That is what is hidden behind the fine words of the president's message.

No 12-Hour Day-The President and the Workers.

WHAT the workers are to expect from Coolidge's capitalist program is summed up in one sentence in the president's message. "The 12-hour day is almost entirely unknown," the president

ers in American industries has reached undreamed of heights, when each worker is producing nearly half again as much as six years ago thru intensified labor, when the workers are beginning to fight for the forty-hour, five-day week, the president, as the spokesman for the capitalists, congratulates them on the fact that the 12-hour day is "almost entirely

This is the insult hurled into the face of the workers who are demanding that their intensified labor and great wealth production shall bring them shorter hours of work and higher wages-a higher standard

The president endeavors to argue that wages have gone up and the cost of living down, but his statements are contradicted by the government's own figures, published by the department of labor. The exploitation of the workers has greatly increased during the years from 1919 to 1925. Their position in capitalist industry is worse than it was six years

The president's capitalist program is to forge new weapons to hold the workers down.

He has nothing to say about the Watson-Parker law, which practically robbed the workers on the railroads of the right to strike.

He asks for a new law in relation to a possible strike of the soft coal miners next spring, which is nothing more than a demand that the Watson-Parker bill be exterded to the soft coal miners, and they,

CAL'S MESSAGE

First Gun in Campaign for 1928 Fired

Simultaneous with the delivery of President Coolidge's annual message to congress, which outlines the capital-ist program of Wall Street, the Work-(Communist) Party of America has issued a statement outlining the program for the workers and farmers.

This statement, which is published on this page and will be issued in leaflet form in millions of copies for distribution among workers and farmers thruout the nation, is the first gun fired for the 1928 election campaign. This appeal is issued under the elo-gan, "A Labor Party in the 1928 Elec-tion."

Coolidge's message told congress that no new policies are needed by the country. "This nation is peace ful and prosperous, and what it needs most is not new legislation, nor expe-rimentation with untried theories, but rather continuation of those which are being crowned with abundant suc-

No Relief for Farmer.

He offered no relief to the farmer.

He attacked relief plans proposed, dethat "the government must not claring that "the government must be put in the business of product marketing, or price-fixing."

Relations with Mexico were ignored in the message. Thus the Mexican issue, which has been paramount in foreign relations, is made conspicuous by its absence. In discussing foreign relations, Coolidge declared that relations, Coolidge declared that America is at peace with the world, and plans to continue so.

"We are strong enough not to be sensitive over trifles; we fear nobody and nobody fears us," he said.

"America is willing to continue disarmament, whenever other nations are willing," he added,

No Tax Cut.

As expected, Coolidge advocated that the treasury surplus be reduced by reducing the payments of the 1927 taxes. He urged congress to pass leg-islation providing for this "present," and urged against any general tax reduction. "I do not think any change in the special taxes, or any permanent reduction is practical." he said.

Wants Coal Strike Power.

A threat to the bituminous union coal miners is contained in the message. Coolidge asked congress for power to allow the president to act in case of a coal strike. "As the wage agreements in the unionized section of (Continued on page 2)

CHICAGO CLUAK-MAKERS WIN IN **NEW AGREEMENT**

After three long and bitterly fought conferences with spokesmen of two clothing bosses' associations, repre-sentatives of the Chicago joint board of the International Ladies' Garment Workers' Union came out of the Mor-rison Hotel committee room on Sunday ready to report to their mem-bership that the employers had ac-ceded to demands for wage increases and an ultimate 40-hour, 5-day work

week for 1,800 Chicago cloakmakers. The will and determination with which the union men carried on the negotiations caused the bosses, stubbornly contesting every point at first, to finally weaken and concede to the unionists all the major demands they put forward.

Bosses Back Down. Bosses Back Down.
The employers came to the conference with demands for the abolition of the unemployment fund, a 44-hour week, the right to discharge part of (Continues on page 2)

In the last few days, the donations to keep The DAILY WORKER have run below their previous record. By failing to keep up the support of The DAILY WORKER, the left wing is indirectly helping the agents of reaction to fight the left wing. This comes at the most dangerous time when all these forces are concentrating

The state of the

right wing.

The left wing must win this fight the all the forces of the devil be let loose against it. The best way to help the left wing win this fight is to keep The DAILY WORKER. Every dollar sent in means a blow at Sigman, Woll, Lewis, McMahon & Co. and their partners, the government and the New York Times. We must hit NOW. We must hit HARD. Send the dollars fast and generously. KEEP THE DAILY WORKER at all costs to fight the enemies of the left wing and of labor generally.

WILL YOU HELP THE LEFT WING OR THE

REACTIONARIES?

THE New York Times has just carried an editorial with a vicious attack against the left wing in the needle trades. The New York Times tries to show how much better off are the railroad workers, who received a paltry 7½c increase at the hands of the Railroad Arbitration Board, than the garment workers, who have won the 40-hour week and a substantial increase in

wages, thru their strike, in spite of the sabotage of the

Now the whole crew is yelping like a pack of hyenas at the heels of the left wing. Sigman, Lewis, Woll, McMahon, the garment manufacturers, the gov-

ernment, and last but not least the New York Times.

DARROW COMES TO DEFENSE OF **ENEA SORMENTI**

1. L. D. Retains Famous Lawyer for Case

Clarence S. Darrow, the famous lawyer, has been retained by Inter-national Labor Defense as chief de-fense counsel in the fight to stop the deportation of Enea Sormenti, one of the leaders of the anti-fascisti forces the United States.

This is part of the widespread na tional campaign which the I. L. D. has begun to defend the right of asylum for political refugees in the United States. Adequate legal defense is assured in this case by the presence of Clarence Darrow, the leading defense counsel in the Moyer, Haywood, Petcase, of the McNamaras, in the Chicago Communist Labor Party, trial, and in numerous other labor

cure the best legal defense in the Sormenti case," said James P. Cannon, secretary of the I. L. D. "A nation-wide campaign of agitation will be conducted by us to acquaint the American workers of the important issues involved in the threat of deportation made by James J. Davis, of the department of labor, especially against anti-fascisti for whom shipment to Italy in most cases means certain imnent or death.

"The widest possible labor and pro gressive support will be mobilized in this campaign by the I. L. D. The American Federation of Labor, and many of its constituent bodies, have already recorded their opposition to recorded their opposition to fascism. American labor is unreservedly opposed to blackshirt rule and it will oppose using a government de-partment to do the work of hounding anti-fascists for Mussolini.

"Leaflets printed in the English and Italian languages in large quantities will soon be on the press and ready IT is significant that what is left of the socialist press is not support In addition, a small popular pamphlet on the record of fascism and the de-portation cases in this country will be published. The Labor Defender, our official organ, will have as its next issue an anti-fascist number. Mass meetings will be held in every center of the country with prominent labor men as speakers. We intend to arouse the whole labor movement in this campaign and put an end to the Davis policy of deportation.

"The fight for Sormenti, who is slated for Italy by the department of fight for the elementary civil and political rights of labor in this country. It is also a fight for the best the soft coal industry expire on April 1 next, and as conflicts may result which may imperil public interest, and have for the soft coal industry expire on April 1 next, and as conflicts may result which may imperil public interest, and have for the soft coal industry expire on April 1 next, and as conflicts may result which may imperil public interest, and those fighters who were forced to flee from despotism and terror to the United States."

The entry of Clarence S. Darrow into the case recalls the trial of the young Russian, Rudowsky, who, like Sormenti, was threatened by the U. government with deportation to sia upon the demand of the czarist government, almost two decades ago. A huge campaign of protest was carried on by radicals to prevent the graing over of Rudowsky to the czar's hangmen, and with the aid of Darrow and Peter Sissman, who led the decounsel in the case, the plan

(Centinued from page 1)

(Continued from page 1)
national officers and their supporters
in some of the New York locals of
the union begin a well-prepared campaign which claims to demand the
removal of the present leadership.
The official declaration of the General Strike Committee follows:
"The traitorous attacks that are
levelled against the leaders of the
general strike by the general board
of the International and the Daily
Forward, the maneuver of the Cooper
Union meeting Thursday night, is a
systematic and organized step of the
right wing machine to break our
strike and in the disturbance to seize
the union.

"All the reactionary powers of the labor movement have undertaken thru provocation and lies to stir up dissatisfaction in the ranks of the cloak

Accused of Treason.

"The General Strike Committee accuses the leaders of the International of organizing and leading the whole movement of treason against the

movement of treason against the strike.

"They, the leaders of the International, have not accepted our challenge to come to the membership and let it decide who has interfered with our strike. Instead of deciding elections to take place in the unions where the members would have their say thru the ballot, the general board has undertaken a campaign of treason and provocation by means of the press and thru meetings which are called by the Sigman klan, and not by the membership. Why don't they come to the meetings of the membership? They could then speak to the membership. They do not do this because they know that they will show only too clearly that they are traitors. They demand our resignation so that they will be able to assume the leadership of the strike."

Belongs to Members.

Belongs to Members.

The General Strike Committee explains that such conduct brands the leaders of the International traitors. We will refuse to hand over the strike to traitors. The unions belong to the to traitors. The unions belong to the membership. The strike is a strike of the membership. The membership has elected us to lead the union and the strikes, and they alone are the ones who control us. We will serve them. The general board did not elect us. The Sigman kian did not elect us. The Sigman kian did not elect us. On the contrary, for years they have succeeded in maintaining control of our union forces. They have failed this time, and now they want to repeat their treason and provocations.

want to repeat their treason and provocations.

The General Strike Committee declares that such the son as this that the general board has committed against the membership, has no parallel in the history of the labor movement. On the very day that the union received the ultimatum of the bosses of the American Association to accept their demands for reorganization under the penalty of a lock-out,—on that same day, the International officials declared open war against officials declared open war against the strike leaders.

Calls For Defense.

The General Strike Committee calls upon the membership to defend the union. The General Strike Committee declares the present leaders, who have been elected by the members will never go against the will of the members, as have those who now want to selze the union.

The General Strike Committee de

clares that elections in our union will be held as soon as the union reaches a settlement with the Amer-ican Association and the jobbers. At these elections it will be the m bership that will carry thru, the election of their officials.

The General Strike Committee an peals to all workers in the needle trades to come to the help of the striking cloak makers against the at-tacks of the internal and external

SEND IN A SUB TODAY.

Delegation of American Dirt Farmers Should Visit Union of Soviet Republics

By J. LOUIS ENGDAHL.

TT is stated that the American IT is stated that the American Farm Burgau Federation, now holding its eighth annual meeting in Chicago, is plauning to send a "Delegation of 500" to visit in Europe, to leave these shores on July 30. This is a splendid idea.

Those who have the interests of the American farmer as an immediate concern, however, must urge two propositions in connection with this proposed delegation:

First: It must be made up of

First: It must be made up of working farmers, those who are actually carrying upon their shoulders the burdens of the soil.

Second: No tour of Europe, no matter how dimited, will be complete without a visit to the Union of Soviet Republics.

There is little of the smell of the soil about the bureau federation gathering. Last year Cal Coollidge, the president of all the foober interests that feed off the farmers as well as plunder the industrial workers, was the bureau's invited guest. Cal was cold shouldered by last year's assembly, because of his blunt refusal to provide even the most meager relief for the agricultural districts, but this year the here of the meeting is Frank O. Lowden, exgovernor of Illinois, beneficiary thru marriage in the multi-millions of the Pullman estate. Lowden is a gentleman farmer, who has an estate bought with his wife's money, and he raises farm issues as handy There is little of the smell of and he raises farm issues as handy weapons with which to win political power. He is a perpetual candidate for the presidency. Another lime lighter in the gathering is Magnus W. Alexander, of New York, president of the national industrial conference board, who is supposed to bring big manufacturing and indus-try closer to the farmers. It is thus seen that the spirit of the gather-

ing tends toward a toleration of the hungry profit leeches who blood-suck the nation's farming popula-In fact, the gathering is domin ated by the interests of the small bankers, the landlords, the manufacbankers, the landlords, the manufac-turers, the food speculators and the rich farmers, whose interests are diametrically opposed to those farm-ers who actually work the land and produce the nation's crops. Relief legislation that benefits the banker, landlord, the grain buyer and the manufacturer, leaves the actual dirt farmer just as broke as ever.

manufacturer, leaves the actual dirt farmer just as broke as ever.

It is taken for granted that the bureau's delegation to Europe will be packed with the interests that dominate it. But this should not prevent the issue being raised of a working farmers' delegation to Europe, and not a delegation of the parasites who live off the farmers.

The delegation should visit the

The delegation should visit the Soviet Union because there only will one find a government actually concerned with the interests of the working farmers. In every other country of Europe the same profit

bankers to charge exhorbitant rates of interest and to call in the sheriff to foreclose mortgages; there are
no speculators to force down the
price of grain in harvest time to
ruinous levels and then push them up again after the crop is out of the hands of the farmers; there are no manufacturers to charge as high prices as possible for all the implements the farmer needs to work the land; there are no absentee landlords, retired in luxurious abodes in the cities, to push up the rents, higher and higher, at every opportunity.

No newspaper in the Soviet Un ion, for instance, would carry the kind of an editorial that appeared in the Chicago Tribune, under the heading "Welcome to the Farmers," stating that:

"The more money the farmers

"The more money the farmers have to spend the more they can buy from our manufacturers and merchants. The citizens of Chicago are anxious to improve the status of agriculture if only for the reasons of snlightened self-interest."

That is the welcome that the fattended hog receives at the stockyards. It is the greeting that the hold-up man gives his victim, the hope that his pockets will contain something worthwhile so that the hawl will be a good one. It is the greeting of the PROFITEER.

Chicago, the banker; Chicago, the

chicago, the banker; Chicago, the board of trade; Chicago, the stockyards; Chicago, the farm implement manufacturer; Chicago, the parasite coupon clipper and interested taker, is the enemy of the farmer.

farmer.

Chicago is not interested in lifting the standard of living of the working farmer. It is merely interested in maintaining agriculture as a source of profit, playing the shell game in which the farmer al-

Prof. Macy Campbell, head of the rural education department, lowa State Teachers' College, raises a lone voice declaring, "The American farmer must bend all his efforts to stem the present drift toward peasantry," by which he means a continuous lowering of the farmers' standard of living. But it is an ignorant voice crying in the wilderness.

The farmer cannot help himself. Like the industrial worker in the city, he is a victim of the profit social system that has reared the capitalist state power that sits en-throned in Washington in defense of profits. The farmers who go to the Soviet Union, will find an entirely different kind of governmen tirely different kind of government in Moscow, the government of the workers and farmers, that has abol-lished the profit system in that vast nation, that develops the closest possible co-operation between the city and land workers, for the pro-tection and welfare of both, and for the lifting of the standard of living of the producing masses.

That is why any delegation of American farmers visiting Europe this coming summer should sure-ly include the Soviet Union. Such a delegation, if it isn't stone

blind, would get an excellent lesson in the fundamental problem out of which all the ills of the agrarian masses grow in the capitalist land from where they come. But only actual dirt farmers would be really interested in learning such a lesson

NEEDLE TRADES WORKERS MEET AT FREIHEIT HALL TONIGHT: ZAZER SPEAKS

dle trades unions will be the topic of a big rally to be held under the auspices of the needle trades section of the Chicago Trade Union Ed-ucational League at Freiheit Hall, 3209 W. Roosevelt road, tonight at 8 p. m. Henry Sazer of the Cap and Millinery Workers' Union will

CHICAGO CLOAK-MAKERS WIN IN NEW AGREEMEN

Wage Increase and 40-Hour Week Granted

he working force twice a year and a free hand in putting on additional

the working force twice a year and a free hand in putting on additional apprentices.

None of these things will be found in the new agreement. The unemployment fund stays, the 40-hour week was recognized, the right of the bosses to reorganize their working forces was refused, the union will control apprentices, and substantial wage increases for all classes of workmen are won. For the ensuing eighteen months, the union men agreed to a 42-hour week. After that the agreement calls for a 40-hour week.

The wage increases won aftect all branches of the trade and run from \$2.00 to \$3.00 per week. Pressers, operators and cutters were raised \$2.50 per week, button sewers and tailors, \$3.00 and finishers \$2.00.

Ratification Meeting.

Harry Ellisberg, of the Chicago Cloak and Suit Makers' Association. led the twelve members present for the employers and J. Levine, manager of the Chicago joint board of the L. G. W. headed a similar number of delegates from the joint board and the various affiliated locals.

A mass meeting of the members of the union will be called by the joint board this week or early next to ratify the agreement. There is no question but that it constitutes a clear victory for the union.

Members of the joint board attributed much of their success to the hard-fought five months' strike of the New York cloakmakers for similar demands. They declared that the present progressive leadership of the union by pursuing a vigorous policy carried the negotiations where the right wing leadership which was defeated in the last union elections, would certainly have failed.

Progressive members of the union remarked that in other cities of the country, outside of New York and Chicago, such as Boston, Cleveland and Philadelphis where there is a rightwing leadership, the 40-hour week was not won. It was only where the progressives are in control of the joint boards, Chicago and New York where the employers have been forced to recognize this important demand.

The achievement of the present union leadership in the L. L

demand.

The achievament of the present union leadership in the I. L. G. W. union in extracting from the bosses even more imposing conditions than were ever won before, solidines their leadership and acts as a fit rein upon the disruptive tactics of the right wing, progressives say.

A sample of the role played by the Chicago right wingers in the recent negotiations is given by progressive

Chicago right wingers in the recent negotiations is given by progressive members of the union. Meyer Peristein, former vice-president of the union, who carried on a campaign of expulsion and intimidation against the left wing when he was in office came from New York just prior to the negotiations and was seen talking to two different cloakmaker bosses. He was known to have had conferences with B. Kirschbaum and members of the firm of Schanker and Michel. Progressives charge that Perlstein tried to persuade the bosses not to recognize the new leadership of the union. Peristein himself is out of the union and in the real estate business, but he is known to be still in close touch with the right wing of in close touch with the right wing of

too, be robbed by law of their strongest weapon He has nothing to say against the proposed laws

to register, photograph, fingerprint and control the movement of the foreign-born workers, to which he gave endorsement in his message last year, which is pending before congress.

Strengthen the capitalists, further enslave the workers, are the president's proposals.

The Capitalist Program and the Negroes. THE Negroes get a few fair words in the president's message. But the president proposes nothing to end the racial discriminations against the Negroes. The constitutional provisions for Negro equality are brazenly ignored, particularly in the South, but congress is not urged to take action to enforce the constitution. The capitalist program is to continue the exploitation of the Negroes as workers and at the same time to maintain the racial diserimination which makes that exploitation even

No Relief for the Farmers.

THE president acknowledges the crisis in agriculture which has resulted in the bankruptcy of millions of the farmers, driven other millions from the land, and because of which the great mass of the poorer farmers cannot get even the bare neces

The president lists many laws which have been assed, supposedly in their interests, but the ers know that while these laws have benefitted their exploiters, they have not helped them. The relief which the farmer demand, thru a measure such as the McNary-Haugen bill, is rejected by the president The only concrete measure the president proposes for agriculture is that the cotton raisers reduce the

land they plant by one-third. There could be no more striking fact to show that the capitalist program has nothing to offer the farmer than that the farmers are told to produce livelihood under capitalism.

No Measures Against the Trusts.

being concentrated in the hands of great combina of capitalists. The great corporations and trusts have absolute power over the lives and wellbeing of the workers and farmers.

FRANCE, BRITAIN JOIN HANDS IN **GERMAN DEMANDS**

Ministers Discuss Basis for "Co-operating"

PARIS, Dec. 7.—Sir Austin Cham-herlain, British foreign affairs secre-eary, and M. Briand, French foreign minister, have met in a pre-league souncil conference here for the pur-pose of deciding on what issues. Great Britain and France will co-mercial at the General metals. operate at the Geneva meeting.

Discuss Germany and Italy.

The demands of both Germany and Prance on Italy occupied the attention of the two ministers. Germany's demand for immediate withdrawal of the allied troops from the Rhineland and the surrender by the allies of military control to the league will come up at the league council meeting. France wants to wring concessions from Germany before relinquishing her power of the country.

Italy's demands for expansion at the expense of French territory may or may not come up at the league, but Briand and Chamberlain discussed what action would be taken in case they did.

they did.

Seeks Britain's Ald. France is anxious for the co-opera-tion of Great Britain in the council, because her power conbecause her power over Germany will because her power over Germany will because day soon as the league takes charge and because Germany will be considered an equal member in the council.

Volunteer military organizations in Germany are still a source of worry for France. Stresemann has given orders to the organizations to cease their military training activities, but France doubts his power to cause the militarists to desist.

Poland Frightened.

Poland is also entering the situa-tion, Zaleski, Poland foreign minister, demanding that Germany abandon cer tain fortifications on the Polish bor-Her. This will come up at the council

Manchester Spinners Organize to Control American Yarn Output

MANCHESTER, England, Dec. 7.— The Cotton Yarn Association, formed to fix prices for yarn produced in the American section, now controls 13,-50,000 spindles. Before the association's committee can proceed an additional 6,000,000 apindles must be obtained. This will bring the section's ercentage of spindles under the as-ociation's control up to 70. The Federation of Master Cotton pinners has decided that, beginning

Spinners has decided that, beginning this week, the spinning hours in the American section will be increased from 24 to 35 weekly, and American spinners are released from their pledge to observe minimum prices.

FRENCH MAYORS OPEN SHOP TO SELL APPAREL; MERCHANTS RAISE HOWL

PARIS, Dec. 7.—The action of the mayors of several cities of France in selling wearing apparel to the consumer has aroused the ire of the French Retailers' Federation. It threatens not only to boycott manufacturers who are supplying the municipal stores, but says it will hold the mayors responsible for its financial losses by reason of its loss of trade. The consumers are giving the mayors' stores generous patron age and saving money.

ENGLAND BEGINS. BACK END FIRST, TO PUBLISH WAR-ORIGIN DOCUMENTS

LONDON, Dec. 7.-It is perhap LONDON, Dec. 7—It is perhaps typical of the topsy-turvydom of Europe that the eleventh and last volume of "British Documents on the Origin of the war, 1892-1924," is the first to be published. This is because the documents in it had been collected and edited before Sir Austin Chamberlain gave his consent to the publication of the whole history.

history.

Documents that never appeared in the British Blue Book are now printed. They reveal estatemen, knowing full well all that war involved, moving fatefully to the slaughter. Sir Edward Grey, for example, felt that war, would plungs all Europe into a financial moraes from which it might never extricate itself. There were British statesman who believed that, if England had sooner declared her intention of entering the conflict, war might have been averted. There are the plausible arguments that it was because of solemn treaty obligations to Belgium that England was forced to intervens.

There is the amusing incident, the

England was forced to intervens.

There is the amusing incident, the one piece of sand in the amoothly-working British diplomatic system, when an English vice-consul at Beigrade, after the Serba had retreated before the Austrians, turned over the archives of his office, including the cipher code, for safe keeping to—well, guessi—to the German legation!

There is another comic opera skit There is another comic opera skit. when the British representative at The Hague, on July 28, 1914, solemnly asked the Dutch minister of foreign affairs if there was anything to be anxious about in the political situation in Europe, and received the illuminating assurance that "his excellency inclined to be optimistic about it." about It."

The volume contains 677 docu-ments, with the marginal notes on

German Government Forced to Modify Its Censorship Proposal

BERLIN, Dec. 7.—The government saved itself from defeat on its censor-ship bill only by modifying its provisions to restrict the power of the state authorities. The bill, modified, was passed by a vote of 250 to 168. The Communist deputies fought the bill bitterly, as did all artists and writers in the country.

The bill as originally drawn provided for censorship boards in all tederal states and a national board to act as court of appeals, with power to declare literature and works of art obscene or objectionable on other

The bill as passed provides for several national boards of censorship, and disregards states.

WELCHES DEBATE OVER ISSUES IN MINERS' UNION

Cappellini Backs Out of Toohey Challenge

SCRANTON Dec. 7.—The "Brophy-for-President" anthracite committee released to the press a letter address-ed to Rinaldo Cappellini sometime ago by Pat Tooliey accepting Cappellini's challenge to publicly debate the issues involved in the present campaign for international offices in the United Mine Workers of America.

Cappellini was quite rash in challenging Toohey to debate, and certainly it is no credit to Cappellini backing out after Toohey accepted the challenge. It will be observed that in the Toohey letter to Cappellini he is willing to meet him in any prominent willing to meet him in any prominent city or town in the District 1 territory, and not confining the debate to any one particular section where Toohey followers might be strong, and again, where in the suggestion for "impartial" chairman of the debate, Toohey suggests Mayor Hart of Wilkes-Barre, who is hand-in-glove with Cappellini in all matters.

Demand Retraction.

The Brophy committee in releasing this letter demands that Cappellini meet Toohey or publicly withdraw his challenge. The letter follows:

Wilkes-Barre, Pa., Nov. 11, '26. Rinaldo Cappellini Miller Building,

Scranton, Pa. Dear Sir and Brother:
While in the district office in Scranwhile it are discrete once its scranton yesterday (November 10) you
stated that you were willing to meet
me on any platform, in any town at
any time in a public debate in connection with the issues involved in
the present election campaign, you to
defend the attentiation and I to
the fight into the local unions. At
the resulting of the opposition, the property of the reposition of the fight into the local unions. At present the position of the opposition. This challengs was made by you "man to man" and not as an official to mem-I may use your own words, and in spite of a huge majority in favor of Howat, ruled that the case could not be heard.

I accept your challenge to debate the issues "min to man" at any date during the week of November 20-27 in the city of Wilkes-Barre, Scranton, Novikeley Bitters Investor of Howat properties of his own fight with Lewis and because of his own fight with Lewis and because of

Naticoke, Pittston, Luzerne, Old Forge, Olyphant or Edwardsville, As an impartial chairman for these meet-ings I suggest the Burgess or Mayor of some of these places, other places we can agree upon in the course of arrangements. As a suitable subject

suggest:
"RESOLVED, That the policies of
John Lewis and Rinaldo Cappellini
make for the betterment of the conditions of the mine workers and
for the saving of the United Mine
Workers."

Or, perhaps you wish to defend the negative; if so, I therefore propose:

"RESOLVED, The program of John Brophy is the only salvation for the U. M. W. of A."

If, perchance, you disagree with the text of the above, either in major or minor detail we can iron it out later. In the event you accept this debate you will appear as Rinaido Cappellini, not President Rinaido Cappellini, or, 'man to man" in your own words.

A line to the address below will each me. Hoping to hear from you in a day or two at most, I am Yours, Patrick Toohey

B. M. T. Would Stop Work on N. Y. Subway

NEW YORK Dec. 7. - Desirous of blocking the completion of the city's proposed independent subway system, Gerhard M. Dahl, chairman of the board of directors of the Brooklyn-Manhattan Transport corporation, has offered to "co-operate" with the board of transportation to straighten out New York's transportation muddle. He urged that work on the subway

by Lewis. be halted until negotiations are completed for the considered consolida-tion of transportation systems. Dahi denies that the city needs the subway system to use as a "club" on the corporations, declaring his company would do nothing opposed to muni-cipal interests. He also said that the independent subway would be too expensive for the city to operate, and that higher fares would result.

THE FIGHT OF ALEX HOWAT AND THE MINERS IN DISTRICT 14: A CHAPTER IN LABOR HISTORY

By WILLIAM F. DUNNE

Hardly had the jail doors clanged behind Howat than President John L. Lewis arbitrarily removed him from office and sent him a telegram notifying him that he was no longer the president of District 14.

Nothing better calculated to strengthen the supporters of the Industrial Court than this action of Lewis could have been devised. It was greeted by a howl of approval from the capitalist press and Lewis was hailed as one of those "safe and sane" labor leaders who are the bulwarks of society—cap italist society.

But the persecution of Alex Howat and the fighting miners of Kansas did not stop with his removal from office. Lewis appointed a provisional district executive board composed of individuals cordially hated by the great mass of the miners and when the strikes for the release of Howat and for the maintenance of contract clauses continued, the whole district was reorganized and the bulk of the miners deprived of their rights in the unic

Howat himself and the rest of the nilitant officials were expelled.

Long Fight Begins.
Then began the long fight of the Kansas miners for reinstatement—a fight in which Howat again took the lead upon his release from jail. It must be remembered that up to the present time no charge of violating the constitution of the United Mine Workers has been officially preferred against Howat or his supporters.

They simply were removed from of-fice and expelled from the union by Lewis-himself in complete defiance of all rules of the union which state speeffically that the international presi dent has no jurisdiction over such dis

trict matters.

As a matter of fact, it is unconstitu tional for the international president to pass on such matters until they have been dealt with by a district con-

District Convention for Howat, Howat has been upheld by a district convention since his removal in spite of the discrimination practiced by the Lewis machine.

the fight into the local unions. At the 1922 convention, Lewis, with the aid of the powerful army of organizers he had brought to the convention, and

own fight with Lewis and because of the strong sentiment for Howat in Illinois, made his peace with Lewis

The Lewis Method. At the 1924 convention, after days of delay, Lewis adjourned the gathering on the last day when Howat asked for the floor. A majority of the dele gates remained in session and pledged themselves to continue to support the struggle of Howat and the Kansas

Howat was then informed by the international executive board that he could become a member of the United Mine Workers again only by going to work in the mines. This "concession carried with it no restoration of his rights in the union. He was to be treated as a new member as were all of his Kansas supporters with one lone exception. This exception was made undoubtedly because the miner in question moved out of Kansas into the Missouri district.

Howat Digs Coal. So Howat went back to work in the mines. He secured a job with much difficulty because of the hostility of the operators and at present is work-Geraes.

The mine, which is said to have been found on an estate owned by Home Secretary Castella, is estimated to hold 20,000,000 cubic meters of period of time.—P. T.

The mine, which is said to have been found on an estate owned by letter to the press if no answer is forthcoming within a reasonable period of time.—P. T.

> to Prevent It Competing again. He was nominated by 90 per cent of the membership as before stated. (As a matter of fact he has been nominated by these huge majorities every election held since his re moval from office but always kep from the ballot by rulings of the handpicked Lewis district machine). It is known to everyone that How-at's name on a District 14 ballot is the at's name on a District 14 shellet is the same as election and herein lies the succeeds in holding on to the union secret of the desperate measures used

> > Bad Conditions in District At present there are from 1.500 to miners in District 14 who are strike cannot be won not in the union. Howat could organize them in a month after taking of trol of the union, then the left wing fice. They are not scabs but are former union miners who have lost confidence in the union since it was wrecked and the remnants placed distance. In aither case Alex Howest and the rectly under the control of the Lewis Kansas miners—many of them scat

The End.)

than an appendage of the operators

President Lewis knows these things No one knows better than he does tha they are incontrovertible facts. Yet he evidently prefers the friendship of the operators to that of miners whom he can distranchise as he has done recently and for years past.

The Reasons.

What is one to conclude? Frank Farrington, when he was aspiring to the presidency of the United Mine Workers, wrote a letter to Lewis which was made public. He

I was told that the president of the Southwestern Coal Operators' Association stated that the Kansas coal operators would pay almost any price to get rid of Alex Howat . . . and I have just as much right to believe that you collected a handsome sum of money for your part in the Kan-sas trouble as you have to believe that I was to collect money for allowing the Lester Strip Mine to

There is an old saving: "Set a thief to catch a thief." I dislike to quote the proven crook Farrington against such an eminent personage as International President John L. Lewis, but Lewis accepted his support to beat Howat and the rank and file in 1924. Farrington was a crook then and he is a crook now and as I said in 1923, when writing about the expose of Lewis by Farrington and Farrington y Lewis, I believe both of them. Of a few things we are certain:

1. The fight of the Kansas miners led by Howat prevent the enforment of the industrial court law or a wide scale and put an end to this sort of suppressive legislation for a long period.

2. The capitalists of Kansas and

the coal operators in particular wanted Howat's influence and authority destroyed in the union. 3. Lewis not only did not give Howat and the Kansas miners any support in their fight against the

Kansas industrial court and the coal operators but did what they could not do-remove Howat from office and expel him from the union when the struggle was at its height.

4. Lewis has prevented Howat from taking office, without a shadow of moral or legal right, and thereby allowed the operators to have their way with the union in Kansas. The above statements are matter

of record and not of opinion. Lewis must be either a monumental egois who can, secure in his own high opinion of himself, watch a district ike Kansas be destroyed rather than dlow it to have its chosen and tried eadership, or he is an agent of the coal operators as Farrington has been proven to be.

Same Policy Everywhere.

In any case, because in greater of ess degree, the same policy of per secution of militant miners and union wrecking all of which is loudly or quietly approved by the coal oper-ators, has been followed in West Virginia, Pennsylvania, Canada and Illinois, John L. Lewis, if for no other reason, deserves defeat by a huge He will be defeated by a huge seams. He is probably the only min- union rather than give up control. seams. Police are guarding the few scale which the

company engaged. Where is Fagan? While the company is thus making an attempt to start its open-shop pol-icy in this organized section, starting with a mine located side by side with everal large organized mines, the district officials of the union, including Hynes, the board member, are conspicuous by their absence. Not a sight of Pat Fagan or any one of his associates! Not an attempt is being made to get the organized miners of at least the section to come at least that section to come together to discuss the problem of how to save

the union there! The members of the union are wondering what became of their district officials and are ask-ing the question: "Where is Pat Fagan now?" Or where is Hynes, the board member of this sub-district, whose duty is to guard the interests of the union in the sub-district?

The local unions around the Care The local unions around the Cres-cent mine should wake up before it is too late and get the district officials to do something to "Save the Union."

This Is Good News For Detroit

The ladies have arranged a social evening for The DAILY WORKER, A gay, good, sociable and simply stunning selection of the best kind of fun the best kind of food-and the best kind of crowd of workingmen and women.

The ladies of the Central Women's Progressive Association have arranged this evening and are charging only 50 cents admission. It sounds im-possible, but it's true and will occur at 8 p. m.

Detroit Party Loses Valuable Comrade in Jac. Krawchuk's Death

DETROIT, Mich., Dec. 7 .- Jacob Krawchuk, a member of the Work-ers (Communist) Party of Detroit, was killed Wednesday, Dec. 1st. on his way to work. While crossing the railroad tracks near the Chryser plant where he was employed he was run over by a train.

In the death of Comrade Kraw-chuk, the party has lost a loyal and an active member who had devoted his entire life and activity to the Communist movement, On Saturday Dec. 4th, hundreds of comrades from Section 6 of the Workers (Communist) Party of Detroit paid their last respects to comrade Krawchuck by attending his funeral. Com-rade Cyril Lambkin spoke at the grave in the name of the district executive committee of the party.

Workers of Detroit Will Attend Banquet with Albert Weisbord

DETROIT, Mich., Dec. 7. - After attending the vast mass meeting ad-dressed by Albert Weisbord Wednesday, Dec. 8, at the Majestic Theater, many workers of Detroit will have an opportunity to spend an enjoyable evening with Weisbord the following day, Thursday, Dec. 9, at the G. A. R. Hall, corner Grand River and Cass.

The Workers Party has arranged a working class banquet for Weisbord and invites all the workers interested in the Passaic strike and the organiza tion of the unorganized to be present. The admission will be 50c and wil include lunch. Some interesting side-lights of the great Passaic strike will be related by Weisbord at the ban-

Fisher-Maslov Group Invited to Comintern Plenum to State Views: Continue Debate on British Strike

(Special Cable to The Dally Worker)

MOSCOW, U. S. S. R., Dec. 7.—The session of the executive committee of the Communist International held on Saturday under the chairmanship of Ernst Thaelmann of the German Communist Party received a letter from Germany signed by Ruth Fischer, Maslov, Schwan, Scholem and Urbans, members of the ultra-left German opposition. (Fischer, Masloy and Schwan are expelled from the party, Scholem and Urbans are still members. Ed.) The letter appealed to the plenum against expulsion

of Fischer, Maslov, etc. from the Communist Party of Germany.

The plenum decided to accord the signatories a last opportunity in conformity with the statutes of the international, to appear immediately and unconditionally before the enlarged

executive committee at its present session to personally advocate their views. This invitation was wired to them at Berlin. They were told to come within one or two days. The plenum approved this action unanimously.

Russian Opposition Proposed.

Reise, of the Wedding opposition in ermany, rose then to propose that the plenum of the Comintern invite the leaders of the opposition in the Communist Party of the Soviet Union to present their views on the English question and the questions before the Communist Party of the Soviet Union Chairman Thaelmann and Ercoli (Italy) explained that this action was unnecessary in wiew of the fact that opposition leaders of the Communist

Party of the Soviet Union, being mem bers of the executive of the Commun-ist International can at any time they please present their position to the plenum. Reise's proposal was unanimously rejected. British Strike.

The debate on the British strike was then continued. Monmosseau (France) declared that the support given the British miners by the Rus sian workers will have a tremendous revolutionizing effect upon the British and the world proletariat. It must be admitted, he said, that the suppor given by the proletariat of other coun tries was inadequate and was due chiefly to the provocative strike-break-ing role of the social democracy. He stated that the French workers

were taken unawares by the British strike, nevertheless the organized workers collected three hundred thousand francs to help the miners. The energetic efforts of the French Communist Party and the revolutionary trade unions to organize a united front and to enforce a coal embarge were systematically thwarted by the reformist trade union leaders.

Fight Misleaders.
The Communist Party must make clear to the British workers that in spite of the international betrayal by the social democratic leaders that they must not be discouraged and leave the unions but must stay and

fight such leaders.

Milliken Tells Clergy

life. The left wing minority move ment in the trade unions has also grown, he said and gave the following grown, he said and gave the following figures: In 1924 the minority move-ment represented 200,000 workers and in 1926, just before the strike, was spokesman for 950,000 and was sup-

ported by over 100 local labor party

Unmasked "Left."

The strike, Jones said, unmasked the true faces of the so-called "left" leaders who wished to exploit the left sentiment among the workers. He concluded by saying that the labor youth under the direction of the Com nunist Party did good work during the strike and was organizationally

and ideologically strengthened.

Evans (England) dwelt on the position and activities of the co-operative movement in Britain. He declared that the co-operatives had ignored the interests of the working class and had showed a marked inability to understand labor's vital everyday needs Communist attempts to increase their influence in the co-operatives had so far been unsuccessful, he said, but the Communist Party must intensify its work within the co-operative move ment,

Buck (Canada) emphasized that the nost important task of the British Communist Party was to consolidate and develop organizationally the left wing minority movement which, dur ing the strike, lacked force. This line is especially necessary now when trustification in British industry will

affect labor unfavorably.

Speaking of the break-up in the British empire, the speaker pointed out Canada's aspirations towards in-dependence. Canada is rapidly de-veloping industrially, United States capital is aspiring to wrest control from the English bourgeoisie. Canada itself must profit by the conflict of interests between British and American capital,

The Communist Party of Capada must, with the help of its brother parties in the United States and Great Britain, put forward the slogan of an independent Canada and the safeguarding of labor's interests. The British Communist Party must pay more Joines (England) pointed out that altho the British Communist Party was small, it played a big part in the strike and has grown in numbers and influence until it is one of the most

John Leheney

a writer who for many years was asacolated with various groups in the
labor movement and who, the not a
member of the I. W. W., tended toward
the anarcho-syndicalist ideology expressed by some leaders of the I.
W. W.

Leheney's body was found Sunday in an alley way, with a contusion in the skull that indicated he may have met with a violent death at the hands of holdup men, altho it could not be arrived and the convention was called sent to the Finnish comrades. Pio-Leaeney's body was found Sunday in an alley way, with a contusion in the skull that indicated he may have

with a collaboration with the reaction with a collaboration with the reactionary bureaucrats of the American Federation of Labor. Working with Gifford Ernest, the pulpitiesa preacher who headed a section of the Chicago This second session opened with the young chairman calling on members bitterly attacked the Communists as "disloyal to the government" and indulged in bitter and unscrupulous attacks on the left wing trade union movement as organized in the T. U.

E. L.

The most important work of the session opened with the young chairman calling on members to stand while the revolutionary functured in the papers just announced.

Among the numerous greetings were telegrams from Scott Nearing and the Communist League and Pioneers of Canada which resulted in an uproposal to the service of the labor movement which represents solutions on all subjects from militar-

the labor movement which represents misdirected ability. More and more the sincers worker elements who were attracted by anarcho-syndicalist uto-plan principles, are turning to the Communist movement for effective participation in the struggles of the working class.—HARRISON GEORGE.

Coroner's Jury Holds Inquest.

John F. Leheney was found dead by a policeman, Frank Duffy, Sunday morning at 7:45 o'clock, in an alley near the corner of Madison and Mor

show of hands.

The Chicago Teachers' Federation protests that the platon system is "exactly the factory system applied to the education of the child."

there were only slight abrasions on the caused death in one having a heart trouble, such as he was known to have had.

This theory is strengthened by the fact that he had, until the night before, been in the employ of the West Side Hospital as a fireman, but had the hospital with his pay in his pocket No money was found on the body.

At the inquest, the coroner asked his daughter, Hazel Ryan, of 7047 Clar endon avenue, who was his only near relative at the inquest, what the oc cupation of the deceased was, and upon being told by her that he was a labor philosopher, remarked in was the 150th anniversary of the sign-ing of the Declaration of Independ-ence. Hence this, the second week of saying that he was a newspaper writer This suggests that perhaps there will sometime be tardy recognition of the principles of that document, such as freedom of speech and the right to an impartial trial by jury, such as Sacco was nothing, all I. W. W.'s and that

Leheney was the author of numerous pamphlets, including "The Economic Interpretation of the Job." For years he was active in the socialist party of Canada, was for a time editor of the Wyoming Labor Advocate, of Caspar,

Wyoming Labor Advocate, of Caspar,

MOVIE WORKERS ARE STILL UNDER OLD CONDITIONS

Strike Move Didn't Win Closed Shop

By L. P. RINDAL (Worker Correspondent)
LOS ANGELES, Dec. 7.—When the
contemplated strike of the workers in the motion picture industry was called off Nov. 29 it was the understanding here that the closed shop would pre vall. The labor press here has announced that. Nothing of the kind has taken place, however. Work on the movie lots is going on in the same

"Get Together."

old way.

A telegram was sent by William F. Canavan, president of the Interna-tional Alliance of Theatrical Stage Employes and Motion Picture Machine Operators in New York, to S. B. Newman, business agent of the Studio Mechanics' Alliance in Hollywood, that a committee had been formed in New York of five union presidents and five film producers who will hear and discuss the requests of both sides. Will Hays, the "czar of the movies," has not published the names of his committeemen yet. The union presidents of said body are as follows: Joseph Weber, James P. Noonan, George F. Hedrick, William Hutchinson and

These men are representing the fol organizations: American Fed-of Musicians, International Brotherhood of Electrical Workers, International Brotherhood of Painters, Decorators and Paperhangers, United Brotherhood of Carpenters and Joiners of America and the International Alliance of Theatrical Stage Employes and Motion Picture Machine Opera

Discuss Organization.

The committee, Mr. Canavan ex-ained, will meet in the near future for organization and thereafter from time to time as occasion arises. sessions will be on its own initiative

or at the request of either side.

Grievances, requests and questions affecting wages, hours of labor or working conditions which may fail of local adjustment at the studios will come under the jurisdiction of the committee, he said.

Strike Leaders Help Boss. Instead of striking like lightning from a clear sky, the producers were given plenty of time to finish all their pictures before Dec. 1, the day set for the strike. And instead of a walk out of 3,500 workers from the film plants the arrangements made with Will H. Hays in New York seems more like a company union in the making— another betrayal of the workers by their so-called leaders.

SCAB WANTS NON-UNION CALF HEAD FROM UNION BUTCHER—HE GETS IT!

By ANDY. (Worker Correspondent)
WILKINSBURG, Pa., Dec. 7.—As the organized workers ask for union made goods, it happens that a soab inslets on buying non-union made

goods.
One day a non-union oustome dropped in a butcher shop, and asked for a calf's head. While butcher was wrapping the calf's head, the eyes of the customer stared at a sign that read "Union butcher, everything in the store is union

"I do not want union made stuff" cried the customer, "I want a non-union head."

er, "I'll give you what you want."
Then he broke the calf's head and took the brains out and said to the

2—Red Cartoons. A collection of the work of 17 proletarian artists.

3—Education in Soviet Russia, by Scott Nearing. A new book and a splendid addition for your library.

OPEN SHOP MANUFACTURER COMMENDS FORD'S PLAN, SEES BETTER MEANS TO EXPLOIT WORKERS AND MORE PROFIT

By SYDNEY BLOOMFIELD.

Write that story, workers!

WORCESTER, Pa., Dec. 7.—Jerome R. George, vice-president of the Morgan Construction Co., of Worcester, gan Construction Co., of Worcester, prominent open shop exponent and member of the National Metal Trades Association, disagrees with the position taken by Judge Gary and the National Association of Manufacturers, against the adoption of the five-day week by the Ford Motor Co.

Writing in Industry, the weekly journal of the Associated Industries of Massachusetts, he says: "I do not

of Massachusetts, he says: "I do not agree with those who think it is a fool proposition. There are so many other ways better adapted to securing economy in operation of most plants than to start them up and run for a

He Ought to Know.
The officials of the Morgan Construction Co, have designed and built entire plants and equipment for the Ford Motor Co., and are therefore in a position to know about the Ford system. Continuing, Mr. George writes: "For about five years the company with which I am associated has operated its plant quite successfully on a basis somewhat like the plan recently adopted by Mr. Henry Ford. This plan of the Morgan Conyears of experience and study of the hours of work problem and adopted, not for the particular benefit of the employes, but because it was the most conomical plan for the company. The many plants in Worcester, which is a steel and machinery producing center of the state, would be compelled to pay a \$6 a day rate to its employes in order to prevent their help from the company.

our plan is the same as under the Ford plan, namely, to work our in-vested capital the maximum number of hours per week. Under this plan we work our machinery 88 hours per week and our men 44 hours, in two shifts, one which works only five days per week. No one works from 11:40 p. m. to 6:30 a. m.; no one works excepting plant repair men on Saturday after 12:30 noon, and there is, of course, no work of any kind done on Sunday."

The Chief Alm.

The chief aim of the new plan is to obtain greater production by the most economical exploitation of the workof plant and machinery. This point is few hours Saturday morning that I have no particular regard for this fractional day of work."

He Ought to Know.

This point is strikingly brought out in the same article by Mr. George, who further writes: "The weakness of the Ford plan is not so much that he fails to work Saturday morning as that he does work his men from midnight to morning, over which period he admits production is relatively unsatisfac-

The same Mr. George, while prais ing Ford's scheme of so-called eco-nomical plant operation, was one of the group of open shoppers who frustrated the attempt of Henry Ford to locate in this city for fear that all the was adopted without fear as to the benefits which would result to the employes from increased leisure time.

"The general principle underlying more profits to him.

Meets Industrial Worker the Boss Will Have Reason to Worry.

ON PICKET DUTY

By JACK KUJAWSKY.

(Worker Correspondent,

New Yorks, Dec. 7. — It was early in the morning, the low temperature indicating approaching winter. Multitudes of people (mostly wage bearners) rushed to the factories, which they surely found as unpleasant, as the present system of society.

On a corner near a tremendously tall building, stood Morris, mute and immovable. He was poorly dressed, indicated in the least suspicion of being a scab.

A tall man, with a long ruddy face the least suspicion of being a scab.

A tall man, with a long ruddy face

ably warm, innumerable birds were flying and offering a hymnal to the sun as if begging the sun never cease ladies in rich apparels were walking

would reach him he worried, saying to himself. "But how was it possible?"

but his pale intellectual face, indicating suffering, and struggle, made him cynosure of all eyes. He stood in that spot for the last few weeks, but today more than ever, he stared at all the pedestrians, and by his confidential silent demeanor, he endeavored to tell the passerby that he was there with a mission; He was picketting.

A tall man, with a long ruddy face and a fat cigar in his mouth was going to enter the building. Morris in haste asked him where he was going. "None of your business" the tall man fearlessly replied. Morris was stunned at the answer, he would not control him. self and in a trembling voice he hurled at him "shameless scab."

The streets as usual were thronged warming them.

Morris suddenly began to feel restless and chilly, if the rays of the sun who by two policemen was led to jail

The Manager's Corner

The Common Sense of Literature Distribution.

One of the best methods of building up a wide circle of regular readers for The DAILY WORKER is thru the sale of Communist literature. No worker who reads such literature can get along without the English Communist daily. Therefore the sale of literature is intimately bound up with the future growth of our daily paper.

The financial problem is a vital one in connection with the development of our paper. The sale of literature is an excellent method of putting our plant on a profitable basis, that will save our supporters the nerve-wrecking worries, that go along with the task of supporting our daily financially. Thus thru the sale of literature, we can build up both an ideological and financial bulwark for The DAILY WORKER, and for the party generally.

If this work is done carelessly and unsystematically, more harm than good may result. To offer the unsophisticated worker, who has never before seen any Communist literature a copy of "Leninism and Trotskyism" is to commit suicide polit-The worker will be antagonized and future approach will be impossible. It is therefore necessary to study each case separately to determine just exactly what is appropriate and then to work up gradually until you have stimulated a desire for all Communist literature. Sometimes it may be wise to begin with such an innocent thing as a radical novel or play. In my own experience I have found "The Brass Check" by Upton Sinclair a good starting point with very conservative workers. Or a book may be introduced tactfully to prove a disputed point about Russia ("Russia Today"), or to settle a debatable point about the American government (Government Strikebreaker). Everything depends on the first approach, as to whether the worker you want to convince will be helped on the road toward. Communism or not.

Meetings are invaluable for the sale of literature. It is interesting to observe the various ways in which our literature is handled at meetings of workers. Sometimes we find that comrades are afraid to bring such a thing as a piece of Communist pamphlet to a meeting for fear of being branded as reds. So they keep their literature carefully concealed in a dark corner at home. In other cases the "red stuff" is flaunted proudly and everything is placed on display at one time, until the liter-ature table looks like a fire sale, and the worker flees in utter confusion. At a meeting the literature sellers should concentrate on one or at the most two books, carefully chosen according to the topic of the meeting and the character of the audience.

Ishave also found that reading circles, or Lenin circles, are an excellent means of stimulating the sale of Communist literature. Discussion of a book by a group of comrades, not only enriches the content of the book, but also encourages individual

These are but a few suggestions which I hope the comrades will amplify by writing me about their own experiences.

TO CONTRIBUTE TO CHARITY DRIVES

By a Worker Correspondent.

WHITING, Ind., Dec. 7.—The city of Whiting has begun to fill its "community chest".

Now, why a "community chest?"

A community chest is for the benefit of the boy scouts, the girl scouts, the American Legion, hospitals and numerous other charities.

Once a year the promoters of the "community chest" get busy and the chest is being filled.

By whom?

By whom?

By the residents of Whiting and by mployes of the Standard Oil Co

Expect Workers to Give.

Every resident of Whiting and every employe of the Standard Oil Co. is expected to contribute, I was told by one of the officials of the Commu-nity Center of Whiting.

As to the residents, they have their choice, but the workers of the Standard Oil Co., they have none.

On Wednesday, Nov. 24, the filling of the "community chest" took place at the Union Tank Line Car Co. The workers had fust settled to eat their lunch but did not get a chance, be-cause they were told to assemble in the dining room to listen to a speech of the Community Center representa-

"No Compulsion." With him was the assistant super-

coustomer:

"There, there, is not this what you want? I took the brains out and made a scab head out of it..."

Each worker is expected to donate at least one dollar. "There is no compulsion," they are told. But try to refuse, and you will feel the conse-

Next Tuesday Is an Important Day

for Coal Miners Next Tuesday the members of the United Mine Workers of America, the largest union in the American labor movement, will vote for two sets of candidates for the leading offices of the organization.

We say "vote for" instead of "elect" because there is plenty of among women in shops and trade

evidence that for a number of years the membership has not elected the officials of the union but that the Lewis machine has perpetuated itself in office thru methods which make Vare of Pennsylvania and Smith of Illinois turn green with envy.

To the present day, President Lewis has never dared, as rovided by the constitution of the union, to publish the tabulated list of votes cast in the last election by local unions. There have even been statements made in moments of personal conversation with confidants by members of the Lewis machine to the effect that Lewis was defeated by Voysey, who until the last election, was unknown outside of his own sub-district.

When it is known that in the last election it was possible for Lewis machine to vote all three anthracite districts as a bloc giving the left wing slate something like 300 votes of 150,000, the narrow base of the Lewis machine among the rank and file becomes

The coal miners of the United States and Canada are tired of and disgusted with Lewis and his destructive policies. The union has lost 200,000 members or more during the last two years of

Decisive sections like West Virginia where there were once flourishing districts with a minimum membership of 40,000, now has 400 members. Kentucky, Tennessee and western Pennsylvania are practically unorganized.

In the anthracite the coal companies, following the signing of an agreement jammed down the throats of the miners by the Lewis machine, are openly challenging the union without an effective reply being made by the Lewis machine.

The Hudson Coal company refuses to let union officials collect dues on its property and the Glen Alden company posts notices announcing a nine-hour day.

Under the Lewis administration, the coal produced in union mines has dropped from 78 per cent to 30 per cent of the total pro-

The Jacksonville agreement expires next spring and the union must either strike or surrender.

Unless the non-union miners, now producing 70 per cent of the coal, can be brought out on strike with the union, the operators will bury the union under an avalanche of non-union coal.

Tricking and deserting striking miners in West Virginia and western Pennsylvania, the Lewis machine has lost the confidence of

thousands of former members of the union. Lewis at the head of the United Mine Workers has become an actual danger to the life of the union which next spring has to get

support of the non-union fields if it is to win. Lewis must not be allowed to juggle the votes and slip into control again. Then comes the struggle for delegates to the convention and then the fight to save the union in spite of Lewis and

the coal barons. The miners' union is the backbone of the labor movement. It must not be beaten.

Next Tuesday such a vote against the Lewis policy of destruc tion must be rolled up that the whole labor movement will know that the coal miners of this continent want an honest, militant leader ship such as that represented by John Brophy, William Stevenson and William Brennan who head the "Save the Union" ticket.

It may be that the future of the whole labor movement for the next immediate period depends upon the result of the election in the

miners' union next Tuesday. With their record of years of bitter and bloody struggle for the building of their union, the coal miners will not shirk their responsibility.

NEGRO HOUSECLEANER WINS AWARD FOR OIL PAINTINGS; OTHERS GET PRIZES FROM HARMON FOUNDATION

Foundation announces the first of a rural school programs to needs of series of annual awards to Negroes of Negroes in country districts in the American residence for outstanding Southern States. Arthur A. Schomcreative work during the past year, in various departments of activity. Juries of five, specialists in the type of work being considered, passed on the entries in each division.

In fine arts, the first award went to Palmer C. Hayden, a housecleaning jobber in Greenwich Village, for five oil paintings of water scenes. While making his living doing odd work in general cleaning he has devoted his spare time for several years to paint-ing, and previous to this award his work was unknown except to a small group of friends. Hayden was born group of friends. Hayden was born cial enterprises. A building contin Widewater, Va., is 33 years old, and tractor, A. A. on on interracial co-operation. The jury in the department of music held that no original creative work was submitted worthy of an award.

Win the Women for Communism!

By MARGARET COWL

COMMUNIST work among women in our party has been moving as with leaden feet. With the exception of some work done among housewives we can register few results. We must examine the reasons why the work

has not made progress.

Among the several reasons for the slowness to gain results is that instead of building the party apparatus simultaneously with work to be performed, we left this important sphere of work to the most inexperienced section of the party—the housewives. By not giving utmost attention to work among the women in the factories from the very start proves that we did not fully understand the nature of munist work among women. We

THERE are still quite a number of comrades, specially women com-rades active in the trade unions who have not gotten rid of the "house-wife character" of work among the women. Even now, when we are attempting to build the party apparatus for women's work, almost in every instance it is necessary to explain to the comrades that women's work is a part of the general party work and that the most important part of Communist work among women is the work among the women in the fac-tories and trade unions as the more important section of the working class women, therefore, women's work is not to be limited to the wom en comrades who do not work in the factories for a wage. Out of this ide-ological confusion we are slowly evolving into systematically planned

work, with purposeful leadership. THE comrades on the District Executive Committee of the Party in New York are now paying more atten-tion to Communist work among wom-en and have placed work in the shops and the trade unions as the first or-der for this work. The work is now recognized as an important department of the party by the leading party committees in New York. Our task now is to carry this understanding down to the ranks in the party.

TN our practical work among the housewives it has been proven that unless we build the party apparatus, unless we furnish the motor power, he entire works will not move in the the entire works will not move in the lirection we want it to. Much energy spent by a few comrades resulted in a splendid organization in one instance, but the entire work went under because the party members were not mobilized to give it life.

In New York the D. E. C. has built up a district committee for work among women under the direct super-

among women under the direct super vision of the D. E. C. of the party. The executives of some of the com-mittees of the subsections of the party have appointed one of their mem-bers to be responsible for work among the women. The units in the party have not yet appointed com-rades for this task. No plans of actual work have been submitted to the subsections, that is why the party has not functioned in this work. However, these plans are being drawn up by the District Women's Committee.

Organization.

THE District Women's Committee
has subdivided itself into three
main sections with a chairman for each subdivision: 1. Work among the women in the shops and the trade mions. 2. Work among the house wives and non-party organizations.
3. Educational and Research Committee. Each subdivision has been instructed to enlarge itself by drawing in comrades interested in the different work. The District Women's Commitee meets twice monthly where the by the subcommittees are taken up. The District Womens' Committee calls thru the party district office where a representative of the Party D. E. C. is but nevertheless is an important facionaries from the lower units of their party subsection where a representative of the District Women's Commit tee is present. Forms and methods for mass work for every party unit and especially for the shop nuclei are the chief points on the order of busiess at these subsection meetings

apparatus as described is abolutely necessary within the frame work of the party if we are to ne masses of women away from the mination of the bourgeoisie and nobilize them for the struggles of the orkers and bring the best of them nto the party.

Work in Shops and Trade Unions FACH party fraction in the trade r unions appoints a comrade as head of women's work. Machinery for this work is established as follows: The subcommittee for work mong women in the shops and the rade unions which consists of severmembers of the District Women's nmittee calls a conference thru the party subsection organizers for work among women and comrades in large unorganized shops where there are no dustrial evila.

several comrades who together with the subcommittee make up the exe-cutive committee for work among the women in the shops and the trade un-

ions. This committee is subordinate to the District Women's Committee. These conferences are called periodically. The conference divides its work into two main parts:\ \(\mathbb{k}\) Among the women in the trade unions, 2. Among women in unorganized industries.

Besides the work based on the specific situation in the given trade union, special means of approach to women must be mapped out for stirring the women in the trade unions into activity to organise the unorganized women; create sentiment and activity for national and world trade union unity; labor party for a working women's delegation to Soviet Russia; to get the women into the left wing and into the trade unions. Such insignificant numbers of women are in the trade unions, such small numbers are in the left wing movement, which proves that a special means of approach is necessary.

Simultaneous with the above, forms and methods of work must be planned for work thru the left wing in the trade unions. We must strive to establish a work with the strive to establish a work in the left wing in the BESIDES the work based on the spe

trade unions. We must strive to es-tablish a women's department in the official publication of the left wing movement.

movement.

Some of the issues for work among the women in factories should be:
Unemployment, wages, hours of work, legislation for the protection of working women, equal pay for equal work, child labor, struggle for demands and

organization into trade unions, protection of the mother, etc.

Each shop nucleus must know the conditions of women in its shop, the needs and demands of the women and base its work accordingly.

Out of this work accordingly.
Out of this work must come the organization of women's factory circles.
These circles are non-party organizations. The shop nucleus functions thru these circles.

Women's Delegate Meetings. AFTER some agitation and propa ganda is carried on thru these A FTER some agreed on thru these circles a women's delegate meeting is called of representatives from shops, factories, trade unions and housewives organizations. These delegate meetings must be periodical with the same delegates attending for at least six months in succession. The delegates report back to their electors on the work of the meetings. These meetings, are not purely for organizing the unions as some comrades believe; the women's delegate meetings are a political institution. The women's delegate meetings are an important factor in Communist work among women. The party must conduct an ideological campaign to popularize and acquaint the comrades with the nature and significance of women's delegate meetings. We will be confronted with the organization of these meetings, therefore must understand them therefore ings. We will be confronted with the organization of these meetings, therefore must understand them thoroly. It is not so easy to organize delegate meetings. We must first gain contact with women workers in shops, especially in important shops. We must do much preliminary work, otherwise our delegate meetings will not be a success.

success. Organize Correspondents

For this purpose we must organize cadre of women worker correspond ents (party and non-party) to publish a bulletin to reflect the life of the women in the factories. This bulletin must be distributed to women in fac-tories and must help to secure contact with the women in the shops and fac tories. It must contain the actual and true condition of the women in the shops. This bulletin must serve the snops. In is bulletin must serve the purpose of paving the way for women's delegate meetings. Shop nuclei, factory district nuclei and trade unions must especially be interested in the getting up and distribution of the bulletin. The housewives also can be utilized in the distribution of this bulletin to the women in the factories Work Among Housewives.

active part in the class struggle. children. If properly approached the reading of his works.

wives' circles organized in the neigh borhood on some specific issue as high rents, poor housing, schools, high prices, etc. Or an issue evolving from a strike like helping to combat scab bery, relief work, against injunctions to picket, etc. It is surprising what success is achieved in organizing the housewife on these issues. The more difficult task is to keep the housewife organized. This success will depend largely on the capability of the Dis-trict Women's Committee to map out the necessary plans of work for these organizations

Women's Auxiliaries

A NOTHER important question regard to the housewife that will have to come up in the near future is the organization and work of women's auxiliaries in the trade unions latives of workers around the fac-tories and shops where these workers

It is our experience that proletarian housewives detest the word "house wife." This is a reaction to the intolerable drudgery conditions of the proletarian housewife. We should consider the question of whether it would be better to find new termino logy for this work.

The housewife circles that have

been organized send delegates to a district periodical meeting which elects an executive committee to conduct the work in the district. The housewives sub-committee of the party district women's committee directs this work,

Mobilize Into United Front.

MANY comrades seek for some spe-cial issues to start women's work. The work can very well be started by linking it up with the general campaigns put forth by the party. One of the immediate tasks is to acquaint ourselves with the psychology of American working women; we must know the role played by Amermust know the role played by American working women in the American class struggle; we must know what industries the women work in and their needs and demands. Some of this information we will get thru our work among the women, but the research denartment of the neutrons. search department of the party must help in getting this data.

The Final Result. COMMUNIST work among the woizing the women into the organizations of the working class and espe cially into the trade unions and the more conscious of them into the party. The special forms of organization set up for women's work must be con sidered only as a special means to approach the masses of women, to in-clude them into large sections of the united front of the working class and the struggle against capitalism.

Party National Conference.
COMMUNIST work among women is a new field of work. Comrades should be encouraged to write up their experiences in this work and publish same in the party press so that othe sections of the party may profit from

these experiences.

There are not as yet "specialists" on women's work in the party. One of the best ways to work out policies and plans for this work is the convocation of a national conference heads for work among women. It is the important task of the party to call

Bunny was startled. "Is that really true, Mr. Roscoe? Have you been able to buy the oil workers' of-ficials?"

Notate that a bunch of boobs can elect to office. And I know what a bunch of boobs can elect to office. And I know what you're thinking—here's an old cow-puncher, without any fine ideals, and he's got without any fine ideals, and he's got a barrel o' money and thinks he gan do anything he pleases with it. But that ain't the point, my boy—it's because I had the brains to make because I had the frame to make the money, and I got the brains to use it. Money ain't power till it's used, and the reason I/can buy power is because men know I can use it—or else, by Jess, they wouldn't sell it to me. You get that?"

"Yes, but what are you going to do with the power. Mr. Roscoe?"
"I'm going to find oil and bring it to the top of the ground and refine it and sell it to whoever's got the it and sell it to whoever's got the price. So long as the world needs oil, that's my job; and when they can get along without oil, I'll do something else. And if anybody wants a share in that job, let him do like I done, get out and sweat, and work, and play the game."

"But, Mr. Roscoe, that's hardly practical advice for all the workers. Everybody can't be an operator."

Everybody can't be an operator."
"No, kiddo, you bet your boots
they can't—only them that's got the they can't—only them that's got the brains. The rest have to work; and if they work for me, they'll get fair wages, and the money will be there every Saturday night for them, no matter how much worrying and planning I got to do. But when some feller comes along with the gift of gab, and sticks himself in between me and my men, and says I can't deal with them except by paying him a rake-off, why then I say, 'The jute mill for him!'." IV.
The thing that Bunny carried

away from this interview was Vernon Roscoe's final appeal. "Can't you see, boy, that your father's a sick man? You're not going to have him with you many years more, and some day when it's too late you're coing to wake un and realize what some day when it's too late you're going to wake up and realize what you done to him. That old man ain't had a thought in the world but to make things easier for you; you can say he shouldn't if you want to, but all the same, that's what he lived for. And now—now you're spittin' on his life! Yes, just that, and you might as well face it. Everything he's done has been no good, it's all crooked and dirty, and the only people with any ideals or the only people with any ideals or any rights on their side are a bunch of ne'er-do-wells that hate him because he's made good and they never will. And if you think the old man don't feel that, if you don't know it's eating his heart out—well, you take it from me, and get your eyes open before it's too late. It you got to despise your father's money, for Christ's sake wait till this labor struggle actually came to a head?
So Bunny went out from the of-

fice, he was not thinking about the troubles of the oil workers. Was it true that Dad's health was so bad? And wasn't there some way he could be got to stop working so hard? Was it necessary for him to be on hand and see every new well that Ross Consolidated brought in, whether it was at Lobos River or Paradise or Beach City? And what was going to happen to Dad when this labor struggle actually came to

Early in the spring the union leaders held a conference, and served notice on the oil board that the dece of governn the operators was beyond endur ance; either the board must assert its authority, or else the workers would take the matter into their own hands. The board did nothing; and when the union officials addressed letters to the operators' committee the letters were ignored. A strike was inevitable; and the longer it was postponed, the worse for the men.
(Continued tomorrow.)

Dinner Pail Epic

The open shop in churches now is raisin' quite a smelly row. Episcopals is seein' red, because the Roman Rota sed, the hitch-up which that church did frame aint good accordin' to the game. In fact, tho 30 years had run, with fruit of daughter and a son, the marriage wuz just one big stall, and they was never wed a-tall.

So bishop Manning tears his hair and all Episcopalians swear, a sayin' that the Roman craft just otta stay on its own raft, and honor marital constrictions instedda grabbin' jurisdic

This open shop will play the hell, if folks can never really tell what they has got for preacher's fee, true wedlock or adultery. It gives my pagan mind sum shocks to see sky-pilots swappin' knocks.
